## Article 1756/1

- strong woven high tenacity Polyamide
- one side pressure sensitive coated
- made up on stiff plastic film = easy to apply
- primer on reverse side to increase cementability
- low/controlled elongation (30%)
- high tear and breaking strength
- thickness: 0.24 mm
- colours: natural and black

also available in

- sheets of 1 sqm
- tapes of 5 - 50 mm

## Article 57510

- strong woven tape made of high tenacity Polyamide
- one side pressure sensitive coated
- made up on stiff plastic film = easy to apply
- Latex Vulkadur primer on reverse side to improve the bond between upper material and lining
- low/controlled elongation (25%)
- very high tear and breaking strength
- thickness: 0.35 mm
- colours: white (57510)

also available in

- tapes of different widths

## Larger Reinforcements for the Leather Goods Industry

Apart from die-cut reinforcing spots which are limited in their dimensions because of the production process we can also offer larger reinforcing parts. They are manufactured on a computerized cutter and the integrated CAD system allows to produce larger reinforcing parts for example for the leather goods industry in any two dimensional customized shape.

# Our Production Programme

## Cut Reinforcing Tapes

among others high tenacity Polyamide and strong non-wovens – cut to size, with different coating options:

- one side pressure sensitive coating
- one side heat sensitive coating
- two sides pressure sensitive coating
- two sides heat sensitive coating
- one side pressure sensitive coating and primer coating on the reverse side
- one side pressure sensitive coating and one side heat sensitive coating

## Narrow woven reinforcing tapes

for different applications

- Prong-proof strap reinforcements
- Thermo-plastic strap reinforcements
- Flexible and strong topline reinforcements

## Functional Elastics

- Fine and thin elastics
- Special strap elastic
- Fine and thin elasticized binding
- Buckle elastic
